

DEV PRAFUL GANATRA

TECHNICAL PRODUCT OWNER | INNOVATION HW/SW SPECIALIST

ganatra.dev@gmail.com | devganatra.github.io | linkedin.com/in/devganatra | github.com/devganatra

PROFILE

Technical product owner with an embedded engineering foundation. I connect product direction, stakeholder needs, system constraints, and iterative delivery to make complex connected products clearer, prioritised, and deliverable.

CAPABILITIES

- Product ownership for sustaining products
- Stakeholder, backlog and delivery alignment
- Embedded C / C++ and microcontrollers
- MATLAB / Simulink and control systems
- Software architecture, integration and CI
- CAN, AUTOSAR and validation

EDUCATION & CREDENTIALS

2013 - 2018

M.Sc. Embedded Systems Engineering

University of Freiburg | Grade 1.8

2008 - 2012

B.E. Electronics Engineering

RTM Nagpur University

2025

SAFe Hardware Agilist

Scaled Agile | SAFe 6

CERTIFIED

iSAQB Software Architecture

Certified Professional for Software Architecture

EXPERIENCE

CURRENT

Technical Product Owner - Sustaining Project

Vaillant Group | Remscheid

Product ownership for sustaining work: aligning stakeholders, prioritising the backlog, managing HW/SW dependencies, and connecting delivery decisions with system constraints and validation.

2022 - NOW

Innovation HW/SW Specialist

Vaillant Group | Remscheid

Embedded and model-based development, software integration, continuous integration, and engineering-tool development.

2019 - 2021

Embedded Software Development Engineer

Bertrandt Ingenieurbuero | Cologne

Embedded and model-based software, AUTOSAR applications, diagnostics, Qt interfaces, validation, and automated workflows.

2018

Research Associate

University of Freiburg | IMTEK

Electrochemical sensing protocols, experimental design, data workflows, and evaluation for neural-interface research.

2016 - 2018

Research Assistant

University of Freiburg | IMTEK

Laboratory systems, corrosion analysis, infrared sensing, and data acquisition.

2015 - 2016

Teaching Tutor

University of Freiburg

Led practical flow-sensor laboratory sessions.
