

**Born**

08 September 1990 in Nagpur, India

**Marital status**

married

**Contact**

ganatra.dev@gmail.com  
+49 176 70 24 44 33

**Address**

Merkenicher Str. 59  
50735 Cologne, Germany

**Nationality**

Indian

**Residence status**

Permanent residence permit

**SKILLS****Languages**

- English: professional proficiency
- German: professional proficiency
- Hindi: native
- Gujarati: native

**Programming**

- MATLAB / Simulink
- C / C++
- Python
- Git / SVN
- Jenkins / CI
- C# / .NET
- Qt

**Embedded & product**

- Technical product ownership
- Backlog and stakeholder alignment
- CAN / AUTOSAR
- Validation and integration

**Credentials**

- SAFe 6 Hardware Agilist
- iSAQB Software Architecture
- Design Thinking Fundamentals
- MathWorks Embedded Coder
- MathWorks Simulink Test

# Dev Ganatra

## TECHNICAL PRODUCT OWNER FOR EMBEDDED SYSTEMS

### EDUCATION

**2013-2018, University of Freiburg, Germany**

Master of Science in Embedded Systems Engineering

Master's thesis at IMTEK: Electrochemical Sensing and In Situ Corrosion Analysis for Neuroimplants

**2012-2013, Goethe-Institut Max Mueller Bhavan, Pune**

German as a foreign language, level B2.1

**2008-2012, RTM Nagpur University, India**

Bachelor of Engineering in Electronics

### PROFESSIONAL EXPERIENCE

**01/2022-PRESENT, Vaillant Group, Remscheid****Technical Product Owner - Sustaining Project | Innovation HW/SW Specialist**

- Product ownership for sustaining work: align stakeholders, prioritise the backlog, and manage HW/SW dependencies
- Connect delivery decisions with system constraints, integration, and validation
- Model-based development in MATLAB / Simulink, code generation, and continuous integration

**01/2019-12/2021, Bertrandt Ingenieurbüro GmbH, Cologne****Embedded Software Development Engineer**

- Model-based development and engineering tools for heating systems
- End-of-line tool: GUI development in C++ / Qt, embedded software, and embedded-computer programming
- AUTOSAR applications, diagnostics, unit testing, MIL testing, integration, and static code analysis

**01/2018-12/2018, University of Freiburg, IMTEK****Research Associate, Laboratory for Sensors**

- Electrochemical sensing protocols, in-vivo application, and experimental design
- Data visualisation and extraction with MATLAB and Python; results published in a peer-reviewed journal

**10/2015-01/2018, University of Freiburg, IMTEK****Research Assistant, Laboratory for Sensors**

- Supported students in laboratory courses and built a teaching experiment for corrosion analysis
